

## COLOURFUL CATERPILLARS

Numbers for the colours:

- 1 - green
- 2 - brown
- 3 - orange
- 4 - yellow
- 5 - red
- 6 - blue
- 7 - white
- 8 - black
- 9 - grey

Each caterpillar or larva is pictured with its dinner. Above is the adult insect it turns into. The grown ups don't look like their children!

Colour or paint the caterpillars and the adults to show their true colours.

Peacock feeding on nettle
